5 *Q.*—Sri R. SRINIVASA IYER : Will the Hon. the Minister for Home be pleased to state—

8th August 1960]

(*b*) the area of land planted with trees with the help of the Horticulturist in Thanjavur district during the years 1956–57 to 1959–60 and the kind of trees planted ?

A.—(*a*) There is one Horticultural Development Assistant in each district except Thanjavur district which has two, one at Thanjavur for the Thanjavur and Kumbakonam units and the other at Pattukkottai for Patt kkottai and Mayuram units. These Assistants were first posted between January and March 1958, as the scheme for the Development of Fruit Production itself was commenced on 14th December 1957 only. But these Assistants and the Officer under the Scheme were withdrawn for a temporary period between April 1958 and August 1958 as certain aspects of the Scheme had not been finalized by them. They were revived and reposted between September 1958 and January 1959.

(*b*) As the Scheme was started only late in December 1957, no work was done either in 1956–57 or in 1957–58. As the Scheme staff were withdrawn for a major part of the year 1958-59, no work under the Scheme was done in 1958–59 also. The area covered in 1959–60 is 41·83 acres. The trees planted consist mostly of mangoes and Acid limes besides a few guavas. The area planted by the ryots which is not covered by the scheme referred to above but which is all the same due to the propaganda by the Horticultural Development Assistant is given below :—
